:lol: damn!

guess due to high-demand esp on those rare ones. . . :angry:

hasbro moves always in bulk and has made million of greens due to their poison globally. .. :P :P

but the JAP-takara always maintain their quality :)

nikon SLR. :P :) with basic exposure non flash and manually focus - right aperture exposure is important too set it at 'soft' mode. meanwhile, canon ixus digital-cam may do the same too suggestion under daylight and i noticed omega_prime his shot is very nice too :)
