Defend the Galaxy with the Massive AT-TE

The All-Terrain Tactical Enforcer (AT-TE) blasted its way into battle for the first time at the Battle of Geonosis, and proceeded to unleash its aggressive power all through the Clone Wars. This armored assault vehicle moves with unyielding intimidation toward enemy fortifications, plowing through energy shields and firing its six lasers and a heavy projectile cannon all the way. Its interior can hold a squad of clone troopers that can be quickly deployed for ground combat.

In and out of pack product images*

The AT-TE has many features that lend themselves to defending the Republic or an offensive attack against the advancing droid army. The 3 ¾" AT-TE features include:

- * Built-in blaster rifle and pistol racks
- * Firing main cannon with blasting sounds and lights
- * Multi-rotational front cannons – adjust one and they all move together
- * Articulated legs
- * Includes clone trooper figure for exciting battle action
- * Auto-deploy opening hatch – deploy your troopers into battle
- * Vehicle walking sounds
- * Six firing "laser" turrets
- * Authentic clone trooper phrases from the Clone Wars series
- * Holds up to 20 figures

Never before has the galaxy seen a vehicle with so many features that can inundate the battle field with fire power and clone troopers. You can be unstoppable with the AT-TE when the droid army mounts a threat. Now is the time to ready yourself for the Clone Wars and what better way than reserving space in your collection for the massive AT-TE. Stay tuned for more exciting news from Hasbro!

May the Force be with you!
